

AVAILABLE FOR HIRE

HELLO!

SARAH JANE OWENS

GRAPHIC | WEB DESIGNER

I'm a coffee drinking Web & Graphic Designer based in Belfast, N. Ireland. Currently studying Interaction Design at Ulster University, exploring the infinite prospects within design. I have a great passion for learning new techniques and also the new ways of technology. On the digital side, using HTML5 and CSS3, I can create small static sites to a basic multipage responsive site. I build sites that don't just work and look good on a laptop or Pc, but also work perfectly fine on other devices such as a tablet or mobile phone. If you are looking for more than just a website, I can also offer help with branding or designs for print. From business cards, brochures and signs, I can help.
